EXAMINER'S AMENDMENT

Election/Restrictions

1. Claims 103-114 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected group, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on May 22, 2008.
2. Applicant's election with traverse of Group I in the reply filed on May 22, 2008 is acknowledged. The traversal is on the ground(s) that the search of Group II would be included in the search for Group I. This is not found persuasive because the examiner would have to search elsewhere to find the specific details of the subcombination (Group II) that are not included in the search of the combination (Group I). The requirement is still deemed proper and is therefore made FINAL.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frederick J. Dorchak on August 1, 2008 to cancel the claims to the non-elected invention to place the application in condition for allowance. The applicant is free to pursue the non-elected claims in a divisional application.

The application has been amended as follows:

In claim 52, line 2 of the claim, after "medium," delete "in particular for a slide valve instrument (2)".

Cancel claims 103-114.

Allowable Subject Matter

4. Claims 52-102 are allowed.
5. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a shut-off instrument having the combination of a stem nut rotationally connected with a main body having an external dimension that is smaller than a nominal width of the flow channel and has ribs that match sealing elements that are secured by support discs by securing means that traverse the discs, seal elements and the main body in bores.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dierkx, Wilson, Sheppard, McInerney, Lucan and Jacobsen disclose shut-off instruments.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Bastianelli whose telephone number is (571) 272-4921. The examiner can normally be reached on M-Th (8-6:30).
